

Aerolet Tilt Palma Vita compatible

- Safe working load:  Overall dimensions: 730mm wide x 680mm deep x 1025mm high

Closomat Aerolet Toilet Lifts

Using appropriate mobility, moving and handling aids when going to the toilet reduces risk of falls and injuries, restores some or all of the user's control over their limitation, enhances their dignity and independence, and reduces risk to and reliance on carers.

The **Closomat Aerolet Toilet Lifts** are fixed over the toilet and replicate the natural motion of standing up and sitting down. They gently raise and lower the user to position them accurately over the toilet as required whilst enabling their feet to remain in contact with the floor and maintaining the centre of gravity above the feet for balance.

The **Aerolet Tilt** is appropriate for people with strength in, and control over, their legs and knees. The user simply leans against the seat, holding the fixed support arms and bearing their weight on their legs as they operate the unit as it moves them from/to the vertical.

Features:

- Closomat Palma Vita compatible
- Controls can be fitted in either the left or right support arm
- After toileting, the lift can be raised by degrees to ease access for cleansing
- Safe working load: Aerolet 150Kg/24St, Bariatric Aerolet increased to 250Kg/39St
- Seat seal on underside of Aerolet ensures optimum drying
- Aerolet fixes to Closomat Palma Vita
- Aerolet depresses seat-pins on Closomat Palma Vita providing normal use
- Can be converted for use with a conventional toilet via a bespoke bracket at an additional cost
- Conventional WC compatible available in standard and small versions, depending on available space either side of the toilet

Accessories:

- **Toilet lift control** - up/down buttons can be mounted on the left and right side
- **Separate hand control** - for use if the Aerolet is used without arm supports, and if the user has limited hand and/or finger function
- **Fold-away arm supports** - all Aerolets can be fitted with fold-away rather than fixed arm supports to ease user transfer
- **Model 24v** - where a power point is unavailable/cannot be installed
- **Moveable arm supports (cow-horn arms)** - provide extra support during lifting
- **Soft seat, junior** - Dark blue colour, to aid the visually impaired
- **Soft seat, adult** - Dark blue colour, to aid the visually impaired
- **Soft seat, adult open fronted** - Dark blue colour, to aid the visually impaired
